Hi Everyone,  
well Rod's new book is just about to go to the printer - see the special offer from the publisher. Randy was the first person to order!

Please forward to your colleagues in USDA (especially APHIS Weed Team), FICMNEW, Invasive Species Council, Exotic Pest Plant Councils, and so on, plus any libraries you think might want a copy. I would also appreciate it if one of you could forward to a representative of WSSA for their email list.

thanks,  
Sandy

> Hello everyone,  
>  
> PRE PUBLICATION OFFER  
> A once only opportunity to purchase an important book at a special price.  
> Offer ends 15th September 2002  
>  
> A Global Compendium of Weeds  
> by R.P. (Rod) Randall  
> Weed Risk Assessor  
> Department of Agriculture, Western Australia  
> ISBN 0 9587439 83, hard cover, 944 pages, price \$165.00 plus postage  
>  
> AVAILABLE AS A PRE-PUBLICATION OFFER  
> \$110 inc. GST plus \$10 postage within Australia  
> offer ends 15th September 2002  
>  
> Predicting which plants will become weeds is difficult, with the single  
> most important indicator of a species' weed potential being a documented  
> weedy history.  
>  
> Until now, the most comprehensive coverage of the world's weed flora was  
> produced in 1979 by Holm et al. (A Geographic Atlas of World Weeds) and

> listed 6400 species. In this compendium, Rod Randall has compiled a list  
> of almost 21,000 entries.  
>  
> This compendium is specifically designed to give anyone interested in the  
> weed potential of a plant a report on its status with, most importantly,  
> further avenues for finding more information through the extensive  
> reference listing.  
>  
> Sample pages are available at [www.weedinfo.com.au](http://www.weedinfo.com.au). Order via web, email,  
> fax or post. VISA, MasterCard, AMEX and Bankcard accepted. Make cheques  
> payable to RG and FJ Richardson (Australian dollars only). Postage outside  
> Australia - we will quote for you.  
>  
> Expected publication date 30th September 2002
