POSITION ANNOUNCEMENT

WILDLIFE BIOLOGIST
KAHEAWA WIND POWER, LLC

The Kaheawa Pastures Wind Energy Facility is seeking a full-time, temporary/seasonal Wildlife Biologist to assist with monitoring and assessments of biological resources in West Maui consistent with initiatives outlined in a comprehensive Habitat Conservation Plan. The Wildlife Biologist will perform duties under the direction of the Senior Wildlife Biologist on a number of project efforts directed mainly at the threatened Newell’s Shearwater and endangered Hawaiian (Dark-rumped) Petrel on the island of Maui, Hawaii. Tasks will include periodic surveys to assess avian mortality, nocturnal seabird colony searches and observations, searcher efficiency studies, and providing support on HCP implementation measures as assigned. The qualifying incumbent should be highly motivated and interested in island biogeography, and demonstrate interest and general familiarity with ecological, conservation and management issues affecting Hawaiian avifauna. Some interest in renewable energy initiatives would be a bonus. This is a temporary position and may be renewed seasonally.

Position Title: **Wildlife Biologist**

Duration of Employment: **May-August, 2006**

Pay and Benefits: **$2,500.00 per month (30K/annum) along with benefits**

**Academic Qualifications:** A degree from an accredited college or university in a field related to wildlife biology, ecology, natural resource management, or environmental science.

**Desirable Qualifications:** Field experience, including but not limited to low-impact camping in remote locations, making systematic observations, recording field notes, entering data and performing other computer-based operations, experience and interest in Hawaiian avifauna and natural history, and the ability to work in a sustainable energy development setting in an uncompromising capacity.

Please send resume with three (3) professional references along with a cover letter describing interests and qualifying experience to:
