Job Title: Aquatic Invasive Species (AIS) Research Technician  
Job ID: 27076  
Project Name: DLNR-Aquatic Resources  
Full/Part Time: Full-Time  
Regular/Temporary: Regular  
Closing Date: 02/28/2007  

Job Summary  

(2) Regular, Full-Time, RCUH Non-Civil Service positions with the Division of Aquatic Resources (DAR), Department of Land and Natural Resources (DLNR), located at the Hawaii Institute of Marine Biology in Kaneohe, Hawaii. Continuation of employment is dependent upon program/operational needs, satisfactory work performance, and availability of funds.  

Minimum Monthly Salary:  
$2,125.00.  

Duties:  
- Conduct field research on aquatic invasive species (AIS) issues.  
- Will work as part of an AIS Response Team, and will be responsible for fieldwork conducted on AIS activities, including rapid response, eradication, control, mapping, monitoring, and other research.  
- Work with the AIS Research Supervisor, DAR biologists, AIS Coordinator, researchers, and private sector individuals in order to conduct AIS research involving State government, Federal government, University, the Coordinating Groups of Alien Pest Species, the various Island Invasive Species Committees, and other agencies dealing with AIS.  

Minimum Qualifications:  
Education:  
- Bachelors Degree from an accredited four (4) year college or university in Biology, Zoology, Marine Science, or related field.  

Abil/Know/ Skills:  
- Knowledge of Hawaiian marine life, aquatic invasive species, underwater photography, and small boat operation.  
- Must be SCUBA certified (NAUI, PADI, etc.) and meet the standards established by DARs diver certification process (which meets the standards set by the Occupational Safety & Health Administration) and hold current certifications in CPR, First Aid, and Emergency Oxygen Administration.  
- Speak and write effectively. Must possess a valid driver’s license.  

Physical/Medical Requirements:  
- Must be able to qualify as a DAR Scientific Diver.  
- Must be capable of handling all necessary diving equipment and procedures required in conducting underwater research from shore or small boats.  

Desirable Qualifications:  
- One (1) year of work experience dealing with the aquatic environment.  
- Knowledge of invertebrate biology and taxonomy.
Experience with survey techniques for fish and benthic organisms.
