Job Title: Wildlife Biologist (Bats)  
Job ID: 27086  
Project Name: Pacific Coop Studies Unit  
Full/Part Time: Full-Time  
Regular/Temporary: Regular  
Closing Date: 03/06/2007  

Job Summary

Regular, Full-Time, RCUH Non-Civil Service position with the Pacific Cooperative Studies Unit (PCSU), Cooperative Ecosystems Studies Unit (CESU), National Park Service position (NPS) Pacific Island Network (PACN), Inventory and Monitoring Program, located on the Island of Guam but based out of the PACN Office at Hawaii Volcanoes National Park. Continuation of employment is dependent upon program/operational needs, satisfactory work performance, and availability of funds.

Minimum Monthly Range:
$2,607.00 - $4,627.00.

Duties:
- Participate in a pilot study to survey bat populations on the Island of Guam.
- May assist with development of a fruit bat monitoring program depending on the results of the surveys.
- Conduct surveys to locate fruit bat individuals, groups, or colonies at roost sites.
- Collect field data on foraging and roost sites, and habitat associations.
- Assess population status throughout the island, and (4) data analysis and reporting.
- This position may supervise one Biological Technician, depending upon project funding.
- Use computer software applications (i.e., MS Word, MS Excel, MS Access, ArcGIS) to enter and process collected data, summarize the survey activities in clear written and graphic formats, and make recommendations for future activities relating to a monitoring protocol.

Minimum Qualifications:

Education:
- Bachelors Degree from an accredited four (4) year college or university in Biology or Environmental Science, Natural Resources Management, or related applied science.

Experience:
- Two to four (2-4) years of experience in a biological field, including four (4) months working with either frugivorous or insectivorous bats in research, inventory, and/or monitoring projects.
- Experience conducting bat surveys, using data management software, Geographic Information System (GIS), and GPS.

Abil/Know/Skills:
- Strong knowledge and ability to implement wildlife inventory/survey program, to collect field data and to identify bats.
Working knowledge and experience with database management and one or more database programs, word processing, and use of Global Positioning System (GPS).

Strong capability in scientific writing.

**Physical/Medical Requirements:**
- Must be able to hike long distances over rough, uneven, rocky terrain under a variety of weather conditions, and carry a backpack with up to thirty-five (35) pounds of weight.

**Desirable Qualifications:**
- Masters Degree in a biological field or completion of graduate level coursework at an accredited college or university in Wildlife Biology, Ecology, or similar field.
- Several months experience working with Pacific Island natural resources, including plant identification.
- Familiarity with Microsoft Access and GIS preferred.
- Familiarity with the use of night vision equipment.
- Experience supervising personnel preferred.

**Inquiries:**
Corbett Nash 985-6185 (Hawaii).
