Job Title: Natural Resource Management Technician I, II, III
Job ID: 27120
Project Name: Pacific Cooperative Studies Unit
Full/Part Time: Full-Time
Regular/Temporary: Regular
Closing Date: 03/06/2008

Job Summary

Regular, Full-Time, RCUH Non-Civil service position with the Pacific Cooperative Studies Unit (PCSU) performing project tasks on land controlled by the U. S. Army Garrison, Directorate of Public Works, Environmental Office, Natural Resources Section on the Island of Oahu. Continuation of employment is dependent upon program/operational needs, satisfactory work performance, and availability of funds.

Minimum Monthly Salary:
Level I: $2,333.33
Level II: $2,500.00
Level III: $2,666.78

Duties:
- A primary goal is to ensure that the military mission is accomplished and that training opportunities are realized to the fullest extent possible in a manner consistent with Federal, State, and Army environmental quality policies.
- Work must be done in accordance with applicable Army, Federal, and State regulations and laws, especially regarding endangered species, safety and health, and pesticides.
- Implement office and field work designed and planned by the PCSU Natural Resource Management staff and Natural Resources Management Coordinators such as, but not limited to: implementing field work (e.g. monitoring, surveying, fencing, etc.); assisting in scheduling, planning, logistics, and documenting day-to-day field work; recording and analyzing field data using computer aided programs.

Minimum Qualifications:

Education:
- Bachelors Degree from an accredited four (4) year college or university in Biological, Biomedical, or Environmental Science with basic or related biology courses (Bachelors Degree in non-related field with one (1) year work or volunteer experience in or related to managing natural resources in Hawaii will be accepted).

Experience:
Experience needs to be documented well and acquired under the employment of an academic institution, governmental agency, private company, or non-profit organization in the appropriate field.

Level I:
Up to one (0-1) year work or volunteer experience in or related to managing natural resources in Hawaii.

Experience needs to be documented well and acquired under the employment of an academic institution, governmental agency, private company, or non-profit organization in the appropriate field.

Level II:

One to three (1-3) years of work or volunteer experience in or related to managing natural resources in Hawaii.

Experience needs to be documented well and acquired under the employment of an academic institution, governmental agency, private company, or non-profit organization in the appropriate field.

Level III:

Two to four (2-4) years of work or volunteer experience in or related to managing natural resources in Hawaii.

Experience needs to be well-documented and acquired under the employment of an academic institution, governmental agency, private company, or non-profit organization in the appropriate field.

Abil/Know/Skills:

- Knowledge of herbicide use and weed control techniques.
- Knowledge of and/or expertise in vegetation and/or rare plant monitoring techniques and data collection.
- Able to use altimeter, compass and maps.
- Able to use word-processing and spreadsheet programs.
- Must possess valid driver's license.
- Must be able to complete basic helicopter safety course and rappelling training within twelve (12) months of hire.

Physical/Medical Requirements:

- Ability to hike and camp in remote areas and rugged terrain under inclement weather conditions, up to four (4) consecutive days.
- Able to backpack and lift and carry forty (40) pounds.

Desirable Qualifications:

- Education and experience in programs managing rare and endangered species and ecosystems on Army lands in Hawaii.
- Familiarity with biological database application and maintenance.
- Familiarity with native and non-native taxa of Hawaii.
- Experience in natural resources monitoring techniques.
- Previous experience in weed, ungulate and other threat control in Hawaii, helicopter operations, work with chainsaws and digging and cutting tools.
- Ability to record biological data with a Global Positioning System (GPS) and utilize Global Information System (GIS).
- Knowledge of Department of the Army natural resources programs in general and the policy, organizational contexts within which they are managed - especially safety and logistical requirements necessary to plan field operations around Army training schedules.
- Familiarity with data analysis and presentation.
