This position in the Conservation Department requires a high school diploma, and a minimum of one year of gardening experience or the equivalent. Employee will assist in technical functions of conservation programs, including restoration and curation activities. Experience in site preparation and plant propagation is a must. Plant curatorial and nursery experience is desirable. This position reports to the Director of Conservation and the Director of Limahuli Garden. Employee will assist with grant-funded ecological restorations in collaboration with the Restoration Project Manager, Restoration Ecologist, and staff working in curation and propagation. This is a one-year grant-funded position, with good potential for renewal.
