

An International Symposium

Managing Vertebrate Invasive Species

August 7-9, 2007

*Hilton Hotel
Fort Collins, Colorado
U.S.A.*

The symposium will highlight research, management and public education associated with vertebrate invasive species (mammals, birds, reptiles and amphibians).

Sessions will focus on the following topics:

- Early Detection and Rapid Response
- Pathways Analysis
- Prevention, Management or Eradication
- Invasions and Impacts
- Economics
- Resource Recovery
- Public Education and Support
- Research Needs
- Global Initiatives

All presentations will be highlighted in published proceedings.

Hosted by the U.S. Department of Agriculture

Animal and Plant Health Inspection Service/Wildlife Services/National Wildlife Research Center

Call for Papers/Posters

On a single page, submit the abstract formatted as a single paragraph preceded by the title, author names, affiliations, and preference for an oral presentation or poster. Please note all oral presenters will be required to submit an article for inclusion in the symposium’s published proceedings. Following the abstract, identify the contact person by name, mailing address, telephone number, and email address. Format the page as follows:

Software: MS Word, or WordPerfect
Margins: 1” all around
Font: Times New Roman, 12 point
Spacing: Single
Justification: Left
Word Limit: 300

“Title for Symposium Abstract” John Doe (Agency), Jane Doe (Agency) Oral presentation _____ _____ John Doe 123 Address Lane City, State 00123 (555)123-1234

Mail a single printed copy of the abstract to the address below, accompanied by a CD or diskette containing the same information. Alternatively, e-mail your submission to the address below as an attachment. **Submit your abstract by January 15, 2007.**
