**Job Title:** Natural Resource Fence Supervisor  
**Job ID:** 27447  
**Project Name:** Pacific Coop Studies Unit  
**Full/Part Time:** Full-Time  
**Regular/Temporary:** Regular  

Please apply before: 10/10/2007

**Job Summary**

Regular, Full-Time, RCUH Non-Civil Service position with the Pacific Cooperative Studies Unit (PCSU). Project tasks on land controlled by the U. S. Army Garrison, Directorate of Public Works, Environmental Office, Natural Resources Section, on the island of Oahu. Continuation of employment is dependent upon program/operational needs, satisfactory work performance, and availability of funds. Minimum Monthly Salary Range: $2,705.00 - $4,801.00.

**Duties:** A primary goal is to ensure that the military mission is accomplished and that training opportunities are realized to the fullest extent possible in a manner consistent with Federal, State, and Army environmental quality policies. Work must be done in accordance with applicable Army, Federal, and State regulations and laws, especially regarding endangered species, safety and health, and pesticides. Works cooperatively with Army Natural Resource Management Coordinators (NRMC) to plan, design and construct ungulate exclosures. Hires, supervises and directs personnel involved in clearing, constructing and maintaining ungulate enclosure fence lines. Responsible for analyzing budget needs, coordinating purchasing with Army Natural Resource Management Staff, and accounting for expenditures. Other duties include: scheduling, coordinating logistics, and documenting day-to-day field work of Fence Construction Technicians; recording and analyzing field data using computer-aided programs. Must adhere to helicopter use, equipment use, pesticide use, and invasive species prevention protocols.

**Minimum Qualifications:** Education: High School Diploma or GED. Experience: Three to five (3-5) years of experience constructing fences in Hawaii. One to three (1-3) years of experience constructing ungulate exclosures for natural resource protection projects in Hawaii. Experience needs to be documented well and acquired under the employment of an academic institution, governmental agency, private company, and non-profit organization in the appropriate field. Six (6) months to one (1) year of supervisory experience.

**Abil/Know/Skills:** Knowledge of native Hawaiian flora and fauna and threats from alien species. Knowledge of a variety of commonly used fencing equipment
and techniques in Hawaii. Able to design and implement natural resource projects. Ability to operate power tools including chain saws, weed eaters, generators, chipper, etc. Ability to communicate orally and in writing and to comprehend complex verbal and written instructions. Must be able to obtain/maintain the following: State of Hawaii Restricted-use Pesticide Applicator certification, Red Cross First Aid/CPR Certification and Office of Aircraft Safety (OAS) Basic Helicopter Safety Class. Must possess valid drivers license, and ability to operate 4-wheel drive and all-terrain vehicles with manual transmission. Must be skilled in field mapping using GPS, contour maps and compass.

Physical/Medical Requirements: Work will be conducted primarily out in remote field areas, living in close quarters with co-workers in tents at spike camps. Able to camp in remote rainforest locations for up to five (5) consecutive days, two (2) to three (3) times a month in inclement weather. Ability to hike up to 12 miles on irregular terrain with backpacks weighing up to 50 pounds. Fieldwork may involve elevation changes up to 3,000 feet in a day. Must not be acrophobic (afraid of heights).

**Desirable Qualifications:** Associates Degree from an accredited community college in Biological/Environmental Sciences or related field (e.g. botany, zoology). Education and experience in programs managing rare and endangered species and ecosystems in Hawaii. Experience supervising construction of ungulate fences for natural resource protection in Hawaii. Experience with equipment commonly used for ungulate exclosures (hog-wire fence, livestock panels, etc.). Experience conducting natural resource management on Army lands in Hawaii. Knowledge of Department of the Army natural resources programs in general and the policy, organizational contexts within which they are managed - especially safety and logistical requirements necessary to plan field operations around Army training schedules. Fieldwork with emphasis on feral animal and alien plant control with a land management agency. Familiarity with computers and data entry. Possess valid State of Hawaii Hunting License.

**Inquiries:** Joby Rohrer 656-8341 (Oahu). Application Requirements: The preferred method of applying for a job is through our on-line application process.
