Job Title: Conservation Initiatives Coordinator
Job ID: 27596
Project Name: Pacific Coop Studies Unit
Full/Part Time: Full-Time
Regular/Temporary: Regular

Job Summary
Regular, Full-Time, RCUH Non-Civil Service position with the Pacific Cooperative Studies Unit (PCSU), Division of Forestry and Wildlife, Department of Natural Resources, located in Honolulu, Hawaii. Continuation of employment is dependent upon program/operational needs, satisfactory work performance, and availability of funds.

Minimum Monthly Salary: Commensurate with qualifications.

Duties: The Division of Forestry and Wildlife is responsible for planning, designing and implementing programs to provide for the conservation and restoration of wildlife resources of the State of Hawaii. Central to this is a focus on private and other lands that are traditionally not directly managed for conservation by government agencies. Responsible for the consultation, coordination, planning and development related to the implementation of conservation initiatives including safe harbor agreements (SHAs), candidate conservation agreements (CCAs), habitat conservation plans (HCPs), incidental take permits, and coordination and administration of grant programs to assist landowner conservation efforts. Assist landowners in developing conservation agreements and plans is also a key responsibility.

Minimum Qualifications: Education: Bachelors Degree from an accredited four (4) year college or university in Biology, Botany, Zoology or Field Ecology. Experience: Three to five (3-5) years of progressively responsible professional experience in the field of biology, ecology, field botany, wildlife conservation, and/or research (Masters Degree from an accredited college or university in related field may substitute for two (2) years of experience; Doctoral Degree from an accredited college or university in related field may substitute for three (3) years of experience).

Abil/Know/Skills: Knowledge and expertise in ecology, botany, and wildlife biology sufficient to conduct biological investigations to predict and identify the effects of land use and land management activities on the environment. Sufficiently developed writing and organizational skills to effectively express ideas and concepts. Ability to prepare and write various types of documents such as letters, memoranda, briefings statements, and technical reports. Ability to effectively communicate orally and express technically complex concepts and plans clearly.
Desirable Qualifications: Comprehensive knowledge of Federal and State environmental laws, regulations, and regulatory processes. Skill and experience in data presentation, scientific expository style writing, and public speaking. Well-developed ability to work effectively with people from different backgrounds and with different perspectives. Experience in the development of SHAs, HCPs, and CCAs, including drafting and review of SHAs, HCPs, CCAs, environmental assessments, environmental impact statements, and incidental take permits. Experience coordinating development of SHAs, HCPs, CCAs with government and non government agencies and organizations. Masters Degree from an accredited college or university in Biology, Botany, Zoology or Field Ecology.

Inquiries: Scott Fretz 587-4187 (Oahu).
