US Fish and Wildlife Job Opportunity

Botanist - Laysan Island

The USFWS is looking for someone with solid botanical skills to re-inventory the plants of Laysan Island in the NWHI (Papahanaumokuakea), to control incipient non-native plants, and to provide management recommendations to the current plant management strategy. Project duration is 6 months. Work would be on Laysan Island and would begin in March. Folks interested in this opportunity should contact the USFWS Invasive Species Strike Team Leader, Jason Hanley.
