Geographic Information Systems Coordinator

The National Tropical Botanical Garden (NTBG) is seeking qualified candidates for a full-time position as a Geographic Information Systems Coordinator in the Living Collections and Horticulture Department on the Southshore.

Applicants are sought for a GIS Coordinator in the Department of Living Collections and Horticulture at the National Tropical Botanical Garden. Candidate should have a college degree in GIS, natural resources, botany, forestry, or a related field, and at least one year of experience in cartography, computer graphics, image analysis, digital photography or similar work. Candidate must have a willingness to travel to other Hawaiian Islands and mainland locations on occasion. Preference will be given to candidates with experience with software such as Arc-GIS, Adobe Illustrator, and CAD programs. Knowledge of remote sensing and map analysis in geology, ecology, or horticulture would be useful, as well as experience with Global Positioning Systems and poster design. The ideal candidate should have experience working with Arc-Info 9.2 Desktop and 3D Analyst extension, but training in software applications may also be arranged.

Applications are available and will be accepted at NTBG Headquarters, 3530 Papalina Road Kalaheo, HI 96741. For more information contact Human Resources at (808) 332-7324 ext. 229 or email hr@ntbg.org. Salary information will be provided to successful candidate. Equal Opportunity Employer/Pre-Employment Drug Screening required.
