• **Job Title:** Wildlife Biologist

**Opportunity location:** This position is located in Lanai City, Hawaii

**Closing date (if specified):** No date specified (will remain here for 90 days from posting date)

**Opportunity Description:**

Tetra Tech EC, Inc., a leading environmental science and engineering consulting firm, has an exciting opportunity in Lanai, Hawaii, for a Wildlife Field Biologist.

This wildlife biologist will be a key player on a team evaluating the potential environmental impacts and the feasibility of a wind energy facility on the island of Lanai.

This will initially be a part-time position. Expected term is through March 2010 with the potential opportunity to extend into a permanent full-time position.

Opportunities may occur to work on other projects throughout the United States.

Initially, the focus of the wildlife biologist will be to assess post-construction mortality of birds and bats associated with meteorological towers in order to evaluate the potential effects on local threatened and endangered species. Additional components may include training dogs for use in surveys, working with state and federal agencies to modify sampling designs or to develop innovative mitigation strategies, and conducting wildlife or vegetation surveys.

The biologist will be responsible for implementing and overseeing a post-construction monitoring program that includes supervising a small field crew and implementing trials according to standardized protocols.

**Required experience:**

BS and 3 years relevant field experience preferred

Able to learn to accurately identify local plant and wildlife species

Able to use hand-held GPS equipment

Fluent in basic tasks in Microsoft Word and Excel

The successful applicant must be proactive, motivated, and have good people and communication skills.

Good organizational skills also a must.
Must be able to conduct field work on foot in rugged terrain and sometimes adverse weather conditions, carry packs of up to 30 pounds, and have a valid driver’s license. The position will remain open until a successful applicant is found.

Tetra Tech EC, Inc. is an Equal Opportunity Employer and we value team-oriented workplace and workforce diversity.
