Job Description

Job Title: PMNM Resource Protection Specialist
Job ID: 28591
Project Name: National Ocean Service
Full/Part Time: Full-Time
Regular/Temporary: Regular

MINIMUM MONTHLY SALARY: Salary commensurate with qualifications.

DUTIES: Supports and advises the staff of the Monument on emergency response, alien species, damage assessment, marine debris, and restoration related to carrying out management and programmatic functions of the Monument to ensure the comprehensive, strong and lasting protection of the coral reef ecosystem and related marine resources of the Northwestern Hawaiian Islands.

PRIMARY QUALIFICATIONS: EDUCATION: Master's Degree from an accredited college or university in Natural Sciences, Resource Management, Planning, or relevant field. EXPERIENCE: Four to six (4-6) years of experience with emergency response and/or damage assessment, alien species assessments, or other resource protection field. Four to six (4-6) years of experience conducting marine life surveys. Experience drafting planning, acquisition and procurement documents. ABIL/KNOW/SKILLS: Familiarity with logistical requirements associated with research and management in the Northwestern Hawaiian Islands. Knowledge of emergency response and environmental restoration including relevant agency roles in a response. Understanding of the Monument Co-Trustee management structure. Knowledge of the fauna of the Northwestern Hawaiian Islands. Knowledge of alien/invasive species issues across the Hawaiian Archipelago. Knowledge of statutes and laws relevant to field operations conducted in the Monument. Understanding of small boat and dive operations and maintenance. Ability to analyze and synthesize information related to field operations and assets through the development of comprehensive planning documents. Ability to conduct vessel hull inspections for fouling organisms and invasive species. Skill with contract and project management. Must possess SCUBA diving open water certification or advanced open water certification. PHYSICAL/MEDICAL REQUIREMENTS: Must be able to participate in extended field work including, but not limited to live-aboard research and educational vessels, field camps etc. Lift up to eighty (80) pounds to assist transporting equipment and gear. Must be able to obtain medical clearance to work on NOAA research vessels or other appropriate vessels and for NOAA diving requirements.

SECONDARY QUALIFICATIONS: Peer-reviewed publication in areas relevant to this position. Experience working with the Coast Guard and/or NOAA's Office of Response and Restoration. Experience with development of educational or outreach materials. Two to three (2-3) years of experience as a scientific or working diver. EMT training. Experience with marine debris cleanup from
vessels at sea. Previous experience as a responder in an emergency response or damage
assessment. Experience in the field of enforcement as it relates to resource management and
emergency response. Familiarity with laws and regulations related to marine pollution and vessel
groundings.

INQUIRIES: Moani Pai 397-2660 (Oahu).
