Press Release

FOR IMMEDIATE RELEASE

Public encouraged to attend County of Maui's April Wastewater
Community Working Group meeting

WAILUKU, Maui, Hawaii-The County of Maui Dept. of Environmental Management will be conducting its monthly meeting of the Wastewater Community Working Group on Thursday, April 1, 2010 from 1:30 to 4:30 p.m. at the Velma McWayne Santos Community Center, 395 Waena Place, Wailuku. The public is encouraged to attend, and is invited to participate in the comment period at the end of the meeting.

Convened by Mayor Charmaine Tavares in September of 2009, the community working group's objective is to provide community-based recommendations to DEM's Wastewater Reclamation Division. These recommendations will assist the county in making significant strides toward achieving Mayor Tavares' goal of 100 percent recycling of Maui's wastewater.

The Maui Wastewater CWG is made up of 21 members representing a broad range of constituencies on the island of Maui. The April 1st meeting will be the sixth meeting held since the CWG began in October 2009 and the process is expected to continue for one year.

For more information, please call the County of Maui's Department of Environmental Management at (808) 270-8230 or visit www.mauicounty.gov.
