Job Description

Job Title: JIMAR PIFSC Social Research Project Manager- Coral Reef
Job ID: 10335
Project Name: JIMAR
Full/Part Time: Full-Time
Regular/Temporary: Regular

Job Summary

Regular, Full-Time RCUH Non-Civil Service position with the School of Ocean and Earth Science and Technology (SOEST), Joint Institute for Marine and Atmospheric Research (JIMAR), located at the National Marine Fisheries Service (NMFS), Pacific Islands Fisheries Science Center (PIFSC) in Honolulu, Hawaii. Continuation of employment is dependent upon program/operational needs, satisfactory work performance, and availability of funds.

MINIMUM MONTHLY SALARY: $3,620/Mo.

DUTIES: Serves as project manager for research projects working with the Human Dimensions Research Program, at the Pacific Islands Fisheries Science Center. Tracks projects, coordinates work among contractors and other employees as needed. Ensures deadlines are met, writes proposals for funding, tracks manuscripts through the review process, and ensures compliance with applicable University and Federal policies and procedures. Projects are multi-faceted and focus on a wide range of interactions among society, culture, and natural resource/marine management with a focus on coral reefs. Works on select social research projects and reports, including develop research designs, conduct interviews, analyze data, make presentations to professional and lay groups, and write reports for publication.

PRIMARY QUALIFICATIONS: EDUCATION: Master's Degree from an accredited college or university in social science or marine policy. Regardless of degree, field of study should contain elements of both social science and marine policy/management. EXPERIENCE: Three to five (3-5) years of experience in the social science/marine policy field beyond a Bachelor's Degree. ABIL/KNOW/SKILLS: Strong knowledge of the following: social science theory and research methods; qualitative research analysis; human dimensions of marine policy and management; biology/ecology knowledge sufficient to explore ecosystem interactions among biophysical and human ecosystem components, with a focus on coral reefs. Ability to manage and coordinate projects; strong writing and speaking skills; ability to collect information in a variety of field settings and conditions; statistical analysis using SPSS, SAS, or similar program. Post Offer/Employment Conditions: Must meet the US Department of Commerce, National Oceanic and Atmospheric Administration security requirements for working in a federal facility which includes being fingerprinted and having a federal background check performed.

SECONDARY QUALIFICATIONS: Experience with coral reef ecosystems. Familiarity with geographic information system programs and analyses.

INQUIRIES: Nicole Wakazuru 956-5018 (Oahu).
