

Aloha,

Please join us for a presentation by Tony Kimmet next Monday, August 16th, from 10 AM until noon in the Pacific Disaster Center's training room. Tony has been an invaluable resource for Hawaii and Pacific Islands satellite imagery.

Thanks,
Rich Nezelek

Greetings. My name is Tony Kimmet and I work for the US Department of Agriculture. My position is GIS Analyst for USDA-NRCS. I work with a inter-government coordination groups such as National Digital Orthophoto Program (NDOP) to acquire Orthoimagery for Federal, State, Local Government and Private Citizens use. I am going to be on Maui on private travel during the week of August 11th-18th. Peter Gehring suggest that I make a presentation to anyone interested in Orthoimagery for Hawaii (Maui) while I am on the island. There are many new developments in Satellite based Orthoimagery that I would like to brief those interested on Maui. Peter suggested that we contact you for your interest in attending a brief meeting and possible holding the meeting at your facility on Monday, August 16th.

Thank You,

Tony Kimmet
