1. **Job Title:** Mariana Crow Field Technicians

   Added here on 4 Feb 2011

   **Opportunity location:** Rota, Northern Mariana Islands (Micronesia)

   **Closing date (if specified):** 1 Mar 2011

   **Opportunity Description:**

   FIELD TECHNICIAN (1) and CREW LEADER (1) - needed for 5+ months each (end date negotiable) beginning in April 2011 to assist in an ongoing study of the endangered Mariana Crow on the island of Rota, Northern Mariana Islands. Responsibilities will include radio-tracking adult and juvenile crows in remote areas of the island, nest-searching and monitoring, resighting and identifying color-banded individuals and mist-netting and banding. Field work involves strenuous hiking over steep, uneven terrain (karst), long field days in tropical heat and humidity, exposure to wasps and other insects. Required Qualifications: previous ornithological field experience, high level of physical fitness, ability to work independently and ability to drive a manual 4WD vehicle. Applicants should be self-motivated, enthusiastic, enjoy working with others in close quarters, and have a good sense of humor. Those applicants with experience in trapping, banding and radio-tracking birds, as well as those with intensive experience nest-searching and monitoring in densely forested habitats will be given priority. Benefits include round-trip airfare to Rota (reimbursed), housing, and $1200-$1400/mo depending on qualifications and experience. To apply, e-mail a cover letter, CV, and the contact information for at least 3 references to: SARAH FAEGRE (E-mail: sfaegre@uw.edu).
