

# Hō'ike o Haleakalā Teacher Workshop

*Learn exciting new lessons and help shape a new curriculum on invasive species!*

**Saturday, March 5th  
from 9am-4pm. No cost and you'll  
get a FREE lunch**

Workshop will be held at the UH  
Maui College, Laulima room 102.

**RSVP by March 2 to  
573-6472 or miscpr@hawaii.edu**

## What is Hō'ike o Haleakalā?

Browse through the curriculum at [www.hoikecurriculum.org](http://www.hoikecurriculum.org).

Hō'ike o Haleakalā teaches high school science through Hawai'i-specific modules based on our unique ecosystems: **Alpine/Aeolian, Rain Forest, Coastal, and Marine**, with a new module in progress on **Invasive Species**. Engaging lessons include group activities, games, slide shows, videos, journal topics, and in-depth research projects. The workshop will feature presentations by Maui educators and resource managers, as well as sample lessons from each module. All material is tied to Hawai'i state benchmarks. Haleakalā National Park contributes to the development of the curriculum.
