

Temporary part-time job as an wildlife biologist with Hamer Environmental (www.HamerEnvironmental.com) for the period of June until December 2011 on Molokai, HI.

Tasks would include:

1. Conducting point-count/audio-visual surveys at 20 stations twice a month (every two weeks);
2. Collecting and entering the data and coordinating with the project supervisor and the program manager bi-weekly.

We will provide:

1. survey equipment;
2. a rental vehicle to get to the project area;
3. a hotel room while on the island;
4. a per diem of 38\$ per visit;
5. RT flights from Oahu (or other island) to Molokai for each visit.

For this position we are looking for a resident of Hawaii, someone familiar with identifying birds by sights and sounds, and with point count experience. We are offering \$18.03/hr assuming a total of 20 hrs each survey visit including travel time.
