

EXPLANATORY NOTES

Scientific names of plants are italicized throughout the book, and only scientific names are used if common names or Hawaiian names do not exist. Hawaiian names and common names are not italicized, and scientific names appear with them on first usage in each paper. Diacritics are used in all words of Hawaiian origin where appropriate, except in names of organizations or institutions. Spelling of Hawaiian names is according to Pukui and Elbert (1981), and Hawaiian place names follow Pukui *et al.* (1986), except where common use differs. Scientific names of Hawaiian flowering plants are according to Wagner *et al.* (1990). Mentioning of products in this volume does not imply endorsement by authors or the agencies or organizations they represent.

Pen and ink drawings by Nanci Sidaras are as follows:

koa haole (*Leucaena leucocephala*) -- page 2
clidemia, or Koster's curse (*Clidemia hirta*) -- page 97
fountain grass (*Pennisetum setaceum*) -- page 339
pānini or prickly pear cactus (*Opuntia* sp.) -- page 409
Florida blackberry (*Rubus argutus*) -- page 483
yellow Himalayan raspberry (*Rubus ellipticus*) -- page 595
kāhili ginger (*Hedychium gardnerianum*) -- page 705
banana poka (*Passiflora mollissima*) -- page 737
firetree (*Myrica faya*) -- page 779
beardgrass (*Schizachyrium condensatum*) -- page 819
strawberry guava (*Psidium cattleianum*) -- page 833
