Work update at Lawai infestation site

Upcoming control work is scheduled to continue the week of May 19, 2008. Crews will be working during daylight hours and up until around 9:30 pm.

Field crew work is scheduled for Monday and Tuesday, May 19 and 20.

This past week lime was applied in sections 16 and 17 where one frog was heard. Herbicide was applied in section 5 to control guinea grass, strawberry guava and other weeds hindering the coqui eradication progress.

Herbicide was applied in section 12 and 21 where one frog was heard. The coqui field crew sprayed section 18 with citric acid after hand capturing one frog in that section.

This week, herbicide will be applied to sections 18, 19, 20 and 21 to control weeds. Coqui eradication will continue with a lime application to sections 14 and 15.

A maintenance application of citric acid will be applied to sections 18, 19, 20 and 21 to control weeds. Coqui eradication will continue with a lime application to sections 14 and 15.

A maintenance application of citric acid will be applied to sections 16 and 18 in addition to any sections where coqui frogs are heard.

Contact Phone Numbers:
- **KISC**: 246-0684 (from 6:30 am to 3:30 pm)
- **Crew Supervisor**: 651-8781
- **Hawaii Department of Agriculture**: 274-3069
- **Pest Hotline**: 643-PEST(7378)

**Tidbit**

Coqui like to climb-up trees at night and glide back down to the forest floor at dawn by spreading-out their legs and toes.
