**2003 PROJECT PROPOSAL**

Submitted to the National Fish and Wildlife Foundation

**November 2002**

**PROJECT SUMMARY**

The Maui Invasive Species Committee (MISC), a partnership of government, private, and non-profit organizations, will continue work on Maui controlling and eradicating priority incipient invasive plant species that threaten the state's most intact federal, state, and private conservation lands and 79 federally-listed threatened and endangered plant species. MISC's goal is to eradicate or control newly established pests before they expand beyond control, so as to preserve the state's native species, environment, and economy.
